

## Release Notes: November 2022

### New Features

Title	Description
Order Status Dashboard UI Update	<p>To aid in quicker page load times, select your filter and search to trigger the details to display. We have expanded the search options which include customer specific reference fields as well as a wildcard search feature.</p> <p>We have added the ability to show orders specifically in the 'Delivery Late' or 'Delivery Pending' delivery status</p>
